ULTRASOUND OF THE PELVIS (TRANSABDOMINAL & TRANSVAGINAL):

CLINICAL INDICATION: menorrhagia

FINDINGS:

The uterus is anteverted measuring 9.3 x 4.1 x 5.1 cm. The endometrial stripe is not thickened measuring up to 3 mm. There is an IUD in satisfactory position.

The right ovary measures 2.4 x 2.25 x 2.1 cm and the left ovary measures 2.1 x 2.0 x 1.6 cm. Both ovaries are normal size and echogenicity. No solid adnexal mass or free fluid is noted.

The prevoid bladder volume measures 213 ml with a postvoid residual of 3 ml. Both ureteral jets are noted

IMPRESSION:

No significant abnormality. IUD in satisfactory position.
